### Responsibilities

Tasked with coordinating pricing and delivery of Cloud Products, communicating timelines and expectations, and driving process improvement and profitability. The role serves as the main point of contact between Precisely teams and Cloud teams, ensuring smooth operations and successful sales. This role is part of the Cloud Business Operations (CBO) organization.

### Communication & Leadership

I am the Cloud Operations Coordinator for EnterWorks hosted environment builds and inform all business units of deadlines and scheduled work. During Sales calls with clients, I am the subject matter expert for Precisely hosted products and I answer contract details for internal business units.
